PRIMARY CONTACT?  YES |  NO    ARE YOU NSI ACCREDITED?  YES |  NO

Note you must achieve accreditation within 24 months of your membership approval if you are not currently accredited.

**R** Thank you for your interest in the Rockhead Group USA, LLC [RGU], a privately owned trade council of the Best in Class stone fabricators. We have membership requirements that are intended to maintain the integrity of the group, including NSI accreditation within the first 24 months of membership (if you are not already accredited). Your application will go through a vetting process, which may include a background check and the completion of a required cultural assessment. Just as we want to ensure that you are a good fit for RGU, the assessment will assist you in determining if the RGU is a good fit for your firm.

The application fee is \$7500 if you have one fabrication shop, \$10,000 if you have 2 shops and \$15,000 for 3 or more which is due within 45 days of your approval notice. You will not gain access to members-only content and benefits until we have received and processed your application fee. Subsequent dues are payable annually. Dependent upon your join date your second year dues will be pro-rated to reflect the remaining months in the membership year which is January- December. After your pro-rated year dues are billed in December and due by January 31st of each year. Payment arrangements for dues are considered on a case by case basis however the application fee must be paid in full prior to the receipt of member benefits. Our benefits package far exceeds the application fee and annual dues. Our benefits package includes direct cash rebates payable to your organization and significant products and services discounts, as well as access to our member-priced private label brands. However, the true benefit of our organization is its collective wisdom, best practices sharing and historical benchmarking data; all of which are priceless.
